

## **Introduction of Eco friendly vehicles**

MaltaPost p.l.c. is committed to play a leading and effective role in our society while also tangibly proving itself to be a responsible and caring institution in the community in which it operates. As part of MaltaPost p.l.c.'s Corporate Social Responsibility it supports initiatives related to the reduction of our carbon footprint which has become a significant element in today's world.

In this regard, MaltaPost p.l.c. has introduced the first postal eco friendly electronic vehicle. Low carbon transport and energy efficiency stand to become important considerations for MaltaPost p.l.c. when assessing processes and projects in the coming years. This vehicle is able to hold voluminous mail items such as parcels and other bulky items which will enable the Company to deliver mail to its clients in the best condition. These vehicles are electrically powered, silent and completely without exhausts making them very environmental friendly.

During a staff award winning ceremony organised by MaltaPost in January 2010 a special award was presented to Ms. Lorraine Pace in recognition for her being the first Postal Operator to use this eco friendly electric vehicle on her daily deliveries.

## **Introduzzjoni ta' vetturi favur l-ambjent**

MaltaPost p.l.c. hija kommessa li jkollha rwol ewlieni u effettiv fis-soċjeta' tagħna filwaqt li b'mod tangibbli tkun hi nnifisha li tkun istituzzjoni responsabbli fil-kommunita' li topera fiha. Bħala parti mir-responsabbilita' soċjali korporattiva tagħna, MaltaPost p.l.c. tappoġġja inizjattivi relatati mat-tnaqqis tal-'carbon footprint' tagħna li sar element sinifikanti fid-dinja tal-illum.

F'dan ir-rigward, MaltaPost p.l.c. introduċiet l-ewwel vettura postali elekttronika 'eco friendly'. Trasport b'emmissjonijiet 'low carbon' u b'effiċjenza fl-energija huma konsiderazzjonijiet importanti għal MaltaPost p.l.c. meta tiġi biex tevalwa proċessi u proġetti fis-snin li ġejjin. Din il-vettura għandha l-kapaċita' li żżomm fiha posta ta' daqs kbir bħall-pakketti u b'hekk tagħti lill-kumpanija l-facilita' li nwasslu l-posta lill-klijenti tagħna fl-aħjar kundizzjoni. Dawn il-vetturi jaħdmu permezz ta' l-elettriku, huma silenzjużi u ma jarmux dhañen – b'hekk huma jħarsu ħafna l-ambjent.

Matul ċerimonja ta' għoti ta' premijiet organnizzata għall-ħaddiema tal-MaltaPost p.l.c. f'Jannar 2010, ġie pprezentat unur speċjali lil Ms Lorraine Pace, bħala rikonoxximent għall-ewwel pustiera li qiegħda tagħmel użu minn din il-vettura elettrika 'eco friendly' waqt it-tqassim tal-posta ta' kuljum.
